## SUMMARY

Computer Science Engineering student specializing in Cloud Computing with hands-on experience in web development, Python, computer vision, and academic projects. Completed **2 internships**, including **1-month** hands-on experience in web development and technical project-based learning. Focused on building practical solutions, solving real-world problems, and continuously strengthening technical skills.

## SKILLS

**Programming:** Python, Assembly Language (ASM)  
**Web Technologies:** HTML, CSS, JavaScript  
**Cloud Computing:** AWS (Learning), Cloud Fundamentals  
**Database:** MySQL  
**Core Concepts:** Data Structures and Algorithms, Object-Oriented Programming, Problem Solving  
**Technologies:** OpenCV, Computer Vision, Raspberry Pi

## INTERNSHIP EXPERIENCE

**Prodigy InfoTech** **May 15, 2026 – June 15, 2026**

*Web Development Intern — 1 Month*

- Developed web projects using HTML, CSS, and JavaScript during the **1-month** internship.
- Applied frontend development concepts through hands-on internship tasks and project development.
- Maintained internship project work in a GitHub repository: [GitHub Repository](#)

**Elevance Skills** **May 29, 2026 – June 29, 2026**

*Intern — 1 Month*

- Completed **6 technical tasks** and contributed to **1 major project, BookMySeat Clone**.
- Strengthened web development, problem-solving, and practical software development skills.
- Project Repository: [BookMySeat Clone GitHub](#)

## PROJECTS

**Fake Note Detection System** *Raspberry Pi, OpenCV*

- Developed a counterfeit currency detection system using computer vision and image-processing techniques for note verification.

**Student Marks Management System** *Python, Web Technologies*

- Built an application with **4 core features**: adding student records, updating marks, deleting records, and viewing results.

**Smart Parking Management System** *Web Development, Computer Vision*

- Developed a website-based smart parking management system integrating computer vision concepts and predefined routes for parking guidance.

**Pothole Detection System** *Web Development, Computer Vision*

- Developed a website-based pothole detection and reporting system with GPS location tracking, image-based detection, severity reporting, and a **150 m alert radius**.

## EDUCATION

**MIT ADT University, Pune** **2024 – Present**

Bachelor of Technology (B.Tech) in Computer Science Engineering (Cloud Computing)

CGPA: **8.57/10**

Relevant Coursework: DSA, Python, Object-Oriented Programming, Web Development, MySQL

## SOFT SKILLS

- Leadership and Teamwork
- Communication and Presentation
- Problem Solving
- Team Coordination
- Time Management
